

# DEVELOP EXECUTIVES

LEARN, SHARE, AND GROW

THREE PACKAGE  
OPTIONS FOR YOU!

## Critical Thinking

Advance your perspective from a department level to an organizational view

## Strategic Vision

Learn how to actively participate, design, and develop a solid strategy

## People Leadership

Become a visionary leader, to engage, support and develop leaders

## Goals & Accountability

Master the most important goals, and demonstrate result accountability

**EVERY EXECUTIVE HAS  
DIFFERENT NEEDS. OUR TEAM  
MEETS THEM, SYSTEMATICALLY.**

Begin with a personal profile assessment, to understand natural wiring and abilities. From there, a custom plan guides your development and learning, in one or multiple areas. Modalities may include webinars, resources, and applied learning projects. Each module is a complete learning plan.

**Choose the way that works for you. You're in charge of how fast and how far you go.**

There is a one-time consultation visit to work with you to develop the executive leadership plan that's right for you and your goals. Once your plan is developed, you'll be able to identify how you wish to proceed, in one of three options: 1) basic education via webinar and resources; 2) basic education + an applied learning project; or 3) basic education + applied learning + a chat learning cohort. Fees for the options will be shared as part of your learning plan recommendation; typically these are one-time or monthly packages.
